PNEUMATIC GUN CONTEST.

The Ship Versus the Equally Up to Specifications, as Illustrated by Recent Reports—Other News from the National Capital.

WASHINGTON, May 28.—The report of the board of officers charged with conducting the trials of the three pneumatic guns of the dynamite cruiser Vesuvius, was made public by the navy department yesterday. In summing up the results of trials the board says: "Generally speaking, the vessel as a gun platform behaved very satisfactorily. There are many details concerning the steering gear and conning tower which could be very much improved."

As to the actual efficiency of the vessel for offensive purposes, the board has little data on which to base an opinion. On May 20 three shots were fired at a target towed by the "Cushing," at a speed of ten knots across the line of fire, the vessel steaming seventeen knots. One of these would undoubtedly have struck a vessel. This the board considers a favorable showing under the circumstances. The board considers that the fittings and application for loading and firing the guns as fitted are very crude and capable of great improvement.

"The board would recommend that the guns should be carefully ranged in some suitable locality where the ball of the projectiles can be accurately determined from shore stations, that some simple and suitable sight should be fitted, and such changes made in the mechanism for the loading and firing the guns as may be found advisable, and that the vessel be then subjected to such further tests as well as to fully determine her efficiency as a torpedo thrower." In view of the statements by the board that the range of the guns were not accurately determined and that sufficient data was not secured to ascertain the defensive value of the cruiser, Secretary Tracy has ordered the board to reconvene and conduct another trial to settle these questions.

Ordered Back to Germany.

WASHINGTON, May 28.—Assistant Secretary Nettleton yesterday ordered that Mrs. Janna Hinck, a German immigrant, 71 years old, who arrived in Baltimore on the 20th inst., per steamship "Muenchen," be returned to Germany, under the terms of the immigration law, which excludes all aliens afflicted with a loathsome or a dangerous contagious disease. This immigrant is suffering from an aggravated form of lupus or tubercle of the skin, which the examining surgeon pronounced both loathsome and contagious. Her eyelids are eaten away by the disease, and upon her face are a number of horrible ulcers.

Her son, who resides in Illinois, offered to give bond that she should not become a public charge, but the treasury officials decide that such a bond cannot guarantee people against contracting this disease. Lupus is reported to be spreading rapidly in southern Europe, where, until recently, it was almost unknown, or confined to narrow boundaries. Assistant Secretary Nettleton has informed Mrs. Hinck's son that if he wishes to test the case in the courts he may do so, in the meantime the return of Mrs. Hinck is deferred until June 3, to allow her son to avail himself of legal advice.

NASHVILLE, Ill., May 28.—Yesterday morning as H. Bollmer was then bound and gagged and left in an unconscious state. As soon as Bollmer was found and the situation made known a posse gave pursuit and captured the negroes at Lenoir, but not before they had managed to secrete \$8,000 of the money. Two thousand dollars was recovered. The negroes are now in jail here.

LATEST SNAKE STORY.

An Indiana Farmer Captures a Museum Attraction.

COLUMBUS, Ind., May 28.—James Graham, an old-time Virginian of tan-bark and hoop-pole notoriety, who resides in Scott county, was in this city, and tells a big snake story, about killing a monster rattlesnake unlike any ever before seen in Indiana. He says he was engaged in pulling bark, last week, and came in contact with a den of rattlers, and after killing ten large ones, as large as are generally seen in this locality, he started up the hillside, where a monster snake, which looked as large as all the balance, lay basking in the sun.

The rattler, on seeing him approach, set up his notes of warning. Graham retreated, and procuring some hickory bark, made a lasso or harpoon by tying his bark spud to it and hurled it at the snake, striking the huge reptile back of the head. On measurement after death it was found to be nineteen feet in length, and had thirty-nine rattles and a button. The skin was stuffed and will be sent to a museum.

Crowded Court Room.

INDIANAPOLIS, May 28.—The trial of Attorney Rheinhold for conspiracy to commit burglary with the Horton gang continues to draw large crowds to the criminal court room. The evidence given Tuesday was corroborated yesterday by other members of the gang, and a circumstantial story was told by several witnesses, who sustained themselves well on cross-examination. They testified that Rheinhold was cognizant of all the burglaries committed, laid the plans for several, and, when papers and other things of no value to the thieves were secured, Rheinhold returned them through the mails. Several of the envelopes were produced in court by parties who had been robbed and who had papers returned to them, and an effort will be made to show that the envelopes were addressed by Rheinhold.

They Walked Out.

CRAWFORDSVILLE, Ind., May 28.—The Midland railroad strikers at Waveland yesterday gave five men, who had been left there to guard the company's property, ten minutes in which to walk out of town, and they walked. The strikers have possession of two locomotives and trains, and say that not a wheel shall turn till they are all paid. They declare that only a detachment of state militia can move the trains and then only temporarily. Threats are made against the officers of the road should they be captured.

She denies any responsibility for the company's debts.

TORTURED BY ZULUS

Experience of Two Americans in Africa.

ONE OF THEM MEETS DEATH.

Only One Survivor of a Ship's Crew of Fifty-Eight and He Is Insane From His Extreme Sufferings—The Startling Disclosures Revealed by a Letter From South Africa.

ST. LOUIS, May 28.—A letter has been received here from Cape Town, South Africa, giving an account of the capture and torture by Zulus of Jeff. Allen, of Decatur, Ill., and W. A. Kennan, whose home is supposed to be in St. Joseph, Mo. The letter is dated March 13, and is signed "Frank Short." It was enclosed in an envelope from the United States consulate at Cape Town.

The British ship Neptune, Capt. Saunders, master, of London, was recently driven ashore off the coast of Natal, adjacent to the free states, and all but five of the crew of fifty-eight perished. The escape of the five persons was in itself a miracle. They were the chief mate, named Adams, a Greek; A. B. Leaman, an Englishman, and W. A. Kennan and Jeff. Allen, two young Americans. Allen was acting in the capacity of purser, and had shipped from Calcutta, India, while Kennan had shipped from Rangoon, Burmah.

"When the ship was wrecked the crew took to the boats, which were capsized. Four of those named managed to swim ashore, while Kennan secured a life buoy, and floated to the shore, with a pet monkey in his arms, but the monkey perished before reaching land. The party stopped nine days at the scene of the wreck and interred all the bodies that floated ashore. During this time suffered greatly, as they had to sleep in the open air and subsist on mussels and wild fruits. The five men started on foot to Natal, 170 miles distant.

"On the way they were captured by a band of Zulus, who stripped off their clothing and proceeded to torture them by tying them to a tree and beating them with the shaft of a jagged club made of rhinoceros hide. While the fiends were in the midst of this barbarous pastime they were surprised by a party of Boer hunters, armed with muskets, who charged upon them and put them to flight. But three of the survivors of the shipwreck were already dead, the Zulus having butchered them with assegais (spears). These three were Jeff. Allen, the Greek and Leaman. Kennan and Adams were the only ones who survived the torture.

"It is heart-sickening to hear Adams relate the way the poor men pleaded for mercy. It seems he became unconscious after the first two strokes with the shaft of the club, and, from what Adams could understand, the chief wanted to spare his life and take him captive to his kraal, while the others he ordered killed.

"Kennan and Adams were safely conveyed to Natal and thence to Cape Town. Kennan is still insane from his suffering."

Kennan Known at St. Joseph.

ST. JOSEPH, Mo., May 28.—Wilfred A. Kennan formerly resided in St. Joseph, and was employed as a packer by Tootle, Hosea & Company, wholesale dry goods. He left St. Joseph about a year ago.

TAX EVASION.

A Startling Exposure of an Affair in Tax Collection.

TOLEDO, O., May 28.—The back tax cases against ex-Governor Ashley, prove an immense exposure of tax evasions. The inquisitors had their case well worked up, and when Mr. Ashley appeared in Toledo last night to deliver a lecture, the papers were ready to serve. The governor was cited to show cause why the sum of \$28,385,713 should not be placed on the tax duplicate for several years past. The most of this property consists of bonds in the Toledo and Ann Arbor railway.

Mr. Ashley has had a mixed residence for a number of years. For several months ago William Hulze and his wife separated and the husband went to Beaver, Ill., leaving his 5-year-old child in charge of its grandmother. Mrs. Hulze has made several efforts to get possession of the child, but it refused to go with her.

SENSATIONAL KIDNAPING.

An Indianapolis Mother Forebly Takes Possession of Her Own Child.

INDIANAPOLIS, May 28.—Some three months ago William Hulze and his wife separated and the husband went to Beaver, Ill., leaving his 5-year-old child in charge of its grandmother. Mrs. Hulze has made several efforts to get possession of the child, but it refused to go with her.

Last night she went to the home of its grandmother, and seizing the child as it lay asleep, dashed out of the house with it in her arms. The grandmother at once gave pursuit and a dozen neighbors joined in, but the mother outstripped them and succeeded in reaching a carriage that was in waiting and made her escape. The parties have been quite prominent in German circles, and the kidnaping caused quite a sensation.

Not Recognized.

PARIS, May 28.—Advices received by the Mexican legation state that the coaling of the Emeralds at Acapulco does not signify recognition of the Chilian insurgent belligerents.

SWEDEN ALARMED

At the Number of Young Men and Women Who Emigrate to America.

LONDON, May 28.—A Stockholm dispatch says the government of Sweden has ordered an inquiry as to conditions in parts of that country said to be almost denuded of young men by emigration to America.

Young women for domestic service are also becoming scarce, and the wages demanded by servants have risen to double the figure of a few years ago. The supply of conscripts is running short, and the burden of military service falls more heavily on those that remain.

As the aged and crippled are generally left behind, while the young and strong of both sexes emigrate, the country in many places, looks as if the effective population had been carried off by war, leaving the physically worthless.

Another fact that causes regret and anxiety to the Swedish government is the large proportion of the pure light haired Swedes among the emigrants, this being the class akin to the north Germans and English, that has heretofore upheld the country both in war and in peace. Their places in northern Sweden are largely taken by immigrant Finns and Laps, who are akin to the Mongols.

In Vermland, the people are leaving in throngs and nearly every young person wants to emigrate.

Rebellious Italians.

NEW YORK, May 28.—The jury in the case of Pasquella Robertello, charged with the murder of her faithless lover, Nicolo Pierre, brought in a verdict of not guilty yesterday afternoon, after a deliberation of over five hours. Deafening cheers from the 500 people in the court room greeted the verdict, and the judge expressed his displeasure of the proceeding by ordering several of the more enthusiastic placed under arrest. They were, however, subsequently released. As soon as the verdict was explained to the pretty little Italian, she burst into a violent fit of weeping. Later she left the court room with her mother, and the crowd followed them for some distance.

Ran Into a Rock.

DENVER, May 28.—Engine 255, attached to a Denver and Rio Grande freight train, while going through Brown's canyon yesterday morning, ran into a rock, which had fallen on the track, and was thrown into the Arkansas river. Brakeman David McComas was caught in the wreck and had one ear torn off and his skull fractured. His injuries will prove fatal. Fireman Lyn Roberts had an ankle fractured. The rest of the train crew were unhurt.

Riot Imminent.

OTTUMWA, Iowa, May 28.—A riot is imminent at Mystic, the seat of all the miners' troubles in this vicinity. A couple of carloads of negroes were imported there yesterday, and all the afternoon strikers have been gathering, and violence is feared during the night. Brown and Bowers, extensive operators, have wired Ottumwa for guns and 1,000 cartridges, and are determined that the strangers shall go to work.

Two Men Shot.

SHENANDOAH, Pa., May 28.—Two men were shot last night by employees of a circus which held forth at Mahanoy City, another had his skull fractured by a thrown stone and a number were more or less seriously hurt. Patrick Quinn, of this place, was one of the victims and will probably die. The fight originated over a gambling game held in one of the tents. None of the showmen were hurt.

Vancil has resided near here for twenty years, and has been a leading light among the United Brethren denomination, from whom he gets the title of "Reverend." This arrest has caused more excitement than that of Rev. Mr. Holmes last Saturday.

ROSSER & MCCARTHY,
Proprietors.

THURSDAY, MAY 28, 1891.

The Winchester Sun thinks Brown's plurality in August will be so large it will surprise all guessers. The ticket is such a good one every Democrat will no doubt turn out and vote for it.

The bitter fight between the two Democratic factions in Ohio cannot result in any good to the party in the Buckeye State. But one of the factions are not caring much for the party so they get the spoils.

TWO MORE convicts were paroled from the penitentiary yesterday and both of them were serving sentences for manslaughter. Was the Parole law passed for the especial benefit of this class of criminals? About nine tenths of the convicts now out under parole have stained their hands in human blood.

THE Carlisle Mercury says Nicholas County will roll up her usual Democratic majority in August. If there is any dissatisfaction among the Democrats of this county it hasn't manifested itself. Mason can be relied on for her usual majority. The Mercury thinks "the platform represents the wants and wishes of the great masses of the people, and will bring back to the Democratic fold many who have been inclined to stray."

Base Falsehood.

The Mt. Sterling Advocate says: "An article was sent out a few days ago claiming to be from Louisa, giving an account of an outrage said to have been committed near Sandy Hook, in Elliott County—the details of which are too horribly infamous to be read without a shudder. The slanderous villain who wrote the article in question is beneath the contempt of decent men. Commonwealth's Attorney M. M. Redwine, of Sandy Hook, is in the city attending Circuit Court, and says he knows every man and woman in the county, and no such parties as those named lived there. He pronounces it a base falsehood from beginning to end."

If we mistake not a special correspondent of the Cincinnati Enquirer was the author of the article.

Framing and Trimming Tomatoes.

At the Kentucky Experiment Station a trial was made with a dozen plants each of a few well known varieties of tomatoes, to test the effect of different modes of trimming and framing. The trimming consisted simply in cutting off five or six of the lower branches at blooming time. It was found that the vines that were trimmed and framed produced the largest and soundest fruit.

Vines that were trimmed and left lying on the ground produced fine fruit in size but unsound. Vines that were not trimmed and left lying on the ground produced an abundance of fruit of small size, and unsound vines. Vines that were framed and not trimmed produced an abundance of sound fruit but small.

A Literary and Musical Treat.

People who enjoy a literary and musical entertainment are promised a treat at the opera house to-morrow night. Professor Knoll and Miss McNeil are among the leading cornet duettists and soloists of the country. The former is pronounced the equal of Arbuckle as a ballad player, and the latter is said to be the best lady cornetist in the world.

Mrs. Kathryn Boughner, a fine vocalist, will render several selections, and the solos on the saxophone by Mr. Frank Martin will be a pleasing feature of the programme.

The literary part of the entertainment will be furnished by Mr. W. Frank Cady, a talented elocutionist of Cincinnati. Seats can be reserved at Nelson's. Admission 25, 35 and 50 cents.

Challenge Accepted.

A picked nine this side of the bridge will accept the Fifth Ward Favorites' challenge for a game of ball to be played Saturday afternoon in the bottom near the depot, game to be called at 2:30 o'clock.

BABY IS SICK—The woeful expression of a Des Moines teamster's countenance showed his deep anxiety was not entirely without cause, when he enquired of a druggist of the same city, what was best to give a baby for a cold? It was not necessary for him to say more, his countenance showed that the pet of the family if not the idol of his life, was in distress. "We give our baby Chamberlain's Cough Remedy," was the druggist's answer. "I don't like to give the baby such strong medicine," said the teamster. "You know John Oleson, of the Waters-Talbot Printing Co., don't you?" inquired the druggist. "His baby, when eighteen months old, got hold of a bottle of Chamberlain's Cough Remedy and drank the whole of it. Of course it made the baby vomit very freely, but did not injure it in the least, and what is more, it cured the baby's cold. The remedy readily knew the value of the Remedy, having used it himself, and was now satisfied that there was no danger in giving it even to a baby. For sale by Power & Reynolds.

Cincinnati Tobacco Market.

(Tuesday.)

The offerings at auction to-day were 288 bbls. The week's sales opened with very small breaks and the market, while showing no special activity, held firm with prices full up to those current last week. For the small supply of medium to good and fine leaf, new and old, there was an active demand, and full prices were realized. The same can be said of colory trash and lugs. Common grades of new are unchanged, the demand being only fair and prices low, while those of old sold well.

Of the 288 bbls, 63 sold from \$1 to \$3.90, 53 from \$4 to \$5.35, 72 from \$5 to \$7.90, 29 from \$8 to \$9.60, 37 from \$10 to \$14.75, 29 from \$15 to \$19.50, and 5 from \$20.25 to \$21.25.

(Wednesday)

With offerings of only fair size the market did not show much, if any, change from the preceding day, there being no special activity shown in the bidding and sales were, as a rule, unsatisfactory and rejections large. A small number of hogheads of good and fine leaf were on the demand, and for these grades, both old and new, the demand held active at full prices. Colory trash and lugs sold well. Medium leaf is not in as good demand as noted heretofore, and the commoner grades received but little attention, and prices are in consequence low.

Of the 684 bbls, 128 sold from \$1 to \$3.95, 148 from \$4 to \$5.95, 138 from \$6 to \$7.95, 66 from \$8 to \$9.95, 107 from \$10 to \$14.75, 58 from \$20 to \$24.75, and 13 from \$25 to \$28.50.

Greenwood's Paint Store!

The Rugby Boys' Busy Day.

I give the everyday routine at Rugby just as my young "Lower Middle" friend rattled it off to me: "Well, the 6:15 morning bell wakes us, but we don't want to get up. Then another bell rings at 6:50 for five minutes. We've got to get in our places in chapel in that time to be 'called over,' and if we are too lazy to make it, it means a 'licking,' that's all. After service we march in order to our different 'form' rooms and say lessons till 8:15. Then we have fifteen minutes to buy any little luxuries, like penny loaves—the house bread's pretty dry—and then comes breakfast. From 9:15 to 1:15, lessons; and dinner's at 1:30.

"We get a rest spell from dinner until 3, and then lessons go on again until 6, except Tuesdays, Thursdays and Saturdays. Theirs half holidays. Every boy has got to join the games then, unless he's got good excuse. Sometimes we get off by shaming a sore foot and many other ways well known to us boys. But whatever we're doing at 6 o'clock, games, snantering or study, everything's dropped, and we give a grand rush for 'tea.' After tea in winter, and after 7:15 in summer, comes 'locking up.' Nobody likes that. Then we have to pitch in 'on preparation'—that's getting our lessons for the next forenoon—until 9 o'clock, when they give us a very light supper that don't make anybody dream. Then it's go to bed, and no fooling, or it means another 'licking,' sure as fees and marshals, that's all!"—E. L. Wakeman in Wilmington News.

On the second day of the week the old Saxons worshiped the moon, calling it "Moonday." We drop one "o" and call it Monday.

READ THIS TWICE!

The only Protection that will effectually protect all people, all classes, all labor and all interests is that styled SELF PROTECTION! acquired only from a truthful knowledge of ways and means, legal and illegal, just and unjust, by which the burdens of government, profits of labor and industry, are so unequally divided.

That knowledge is power, and ignorance its slave, is forcibly illustrated daily in all walks of life, among all people, in all countries.

Where knowledge is used as a power or a means for gaining wealth without labor or an equivalent therefor, it becomes necessary to deceive or keep in ignorance of such methods those from whom the wealth is taken; hence it is that of the ten thousand newspapers printed in the United States, less than ten are absolutely free and independent of the power or control of some class, party or monopoly whose interest it is to keep the great mass of people in ignorance of their methods.

The Cincinnati Weekly Enquirer is one of the few, if not the only one, absolutely free from such influences. It is the most honest, thorough, able teacher and exponent of truthful knowledge, of reliable data, free from partisan bias, fair, frank and explicit to such degree that one cannot but feel edified and capable of forming correct conclusions therefrom. Such a paper should be in every household. Sample copies can be obtained by addressing the publishers, at Cincinnati, O.

For the Farmer.

An exchange truly remarks: "It is an axiom with sheep growers that all breeds are poor if they are neglected, but a good breed and a good shepherd combined give best results.

There has been a great advance in the price of farm products since April, 1890. In corn and oats it has been 100 per cent. in wheat 30 per cent. and for beaves 32 to 34 per cent.—Exchange.

Nothing is lost that is added to the soil if a farm is properly managed. The coarsest manure will become plant food after a lapse of a certain period of time, but it is best to endeavor to have all the manure in the finest possible condition.

The time will probably come when farmers' families will eat more poultry and less pork and salt beef. When that time comes we shall find better health on the farm—a place where the best of health ought, from the nature of things, to be enjoyed, but where this ideal physical state is far from existing at present.—Exchange.

THE editor of the Chicago Medical Record says: "We are pained to record the death of Dr. J. H. Holton, of Maysville, Ky. The first time we ever met him was in June 1, 1882. It was in Maysville, at the breakfast table in the Pepper House. A kind providence seated us at his side. We got into conversation as entire strangers often do. On learning that he was a homeopathic physician we began to ridicule homeopathy. We were thoroughly posted in all the objections to homeopathy, but absolutely ignorant of its principles. He took our ridicule so good-naturedly that we were surprised and pleased with his kind fatherly manner. We were led to make an honest investigation of homeopathy and the result was as it always is after an impartial investigation, a convert to its principles. It was upon his advice we came to Chicago. Our meeting Dr. Holton was a turning point in our career. We have never regretted that meeting. We are thankful every day we practice medicine that we were led to investigate homeopathy.

Correspondence Relating to the Esmeralda and Her Coal.

CITY OF MEXICO, May 28.—The following correspondence, which passed between President Diaz, the governor of Guerrero, and the mayor of Acapulco, is published in El Partido, a liberal semi-official government organ.

ACAPULCO, May 19, 1891.
GOVERNOR ARCE—The military commander has placed barges of coal near the government wharf. The city is exposed to an attack from the Esmeralda. In the name of the people, try to remedy this.
[Signed.] POSADO, Mayor.

BRAYOS, May 19, 1891.
President Diaz, City of Mexico.

The people must aid the government forces in repelling any attack from the insurgent vessel Esmeralda without paying attention to the town security.

[Signed.] ARCE, Governor.
CITY OF MEXICO, May 19.
GOVERNOR ARCE—Your telegram received. Please express to the people of Acapulco that I echo your sentiments.
[Signed.] PORFIRIO DIAZ.

ACAPULCO, May 19.
The coal has been unloaded, and it is at the wharf under guard of Federal troops. Commerce is being frightened. I beg that this step be modified. I will obey the military. The Esmeralda directed an electric light on Fort Galeon and the shore.
[Signed.] GAONA, Political Prefect.

TRAYOS, May 21.
PERFECT—Obey orders to repel all attacks of Esmeralda. See that the National honor is upheld.
[Signed.] ARCE, Governor.

MAFIA IN NEW ORLEANS.

What the Mayor of the City Has to Say on the Subject.

ST. LOUIS, May 28.—Mayor Joseph A. Shakespear, of New Orleans, is in this city. He was asked: "What is the position of the Mafia at New Orleans at the present time?"

"They are quiet, quieter than they have been for years," he replied. "The lesson taught them at the parish prison has had the most excellent effect, and I do not anticipate that we will have any other further trouble with them. I do not think there are more than 300 Mafia in New Orleans at present, and the number is rapidly diminishing, as they are getting out of town as fast as they can."

"Is Blaine's management of the controversy with the Italian government popular in New Orleans?" was asked.

"It is, indeed, and I intend to make it more popular. In fact, I intend to become Jim Blaine No. 2. The rascals now know what they have to expect if they indulge in their peculiar line of business and can be relied on to keep very quiet in the future. They know that there is plenty of the same kind of medicine ready as was administered to Hennessy's murderers, and one dozen will be enough."

KILLED BY A TORPEDO.

An Explosion of Nitro-Glycerine in a Mine.

BRADFORD, Pa., May 28.—Peter Hart, a torpedo shooter, was instantly killed yesterday evening three miles north of this city by an explosion of glycerine. He had exploded a forty-quart shot of glycerine in an oil well at Rew City and had returned to his magazine. Instead of depositing the remainder of the load which he had in his wagon he secreted several cans of it in a hollow stump 200 feet from the magazine. Why he did this is unknown.

While so doing, it is supposed that he accidentally dropped a can in the stump and the explosion followed. The report was heard for miles around, and when persons in the neighborhood reached the place all that could be seen was a deep hole in the ground and a few fragments of human flesh scattered about to tell the story of the man's awful fate. His remains when gathered up filled a grape basket. Hart's team was found a few rods away uninjured, but quite deaf. Four cans of glycerine were in the wagon still intact. Within 200 feet of the spot was stored 6,000 pounds of the explosive compound. Hart was known all through the oil country as an expert shooter.

His Mother Dead.

TOPEKA, Kan., May 28.—A small frame residence at the corner of Buchanan avenue and Gordon street was burned yesterday morning. In the ruins were found the charred remains of Mrs. Auptegron, aged 25, and her three children, all girls, aged from fifteen months to 5 years. All the surrounding circumstances point to a deliberate and carefully planned triple murder and suicide. The scene of the tragedy is in a sparsely settled portion of North Topeka, and the house was supposed by the neighbors to be uninhabited. It was learned that the family moved into the house about a month ago. The father is a teamster, and left home only yesterday morning to look for work.

Ten Persons Burned to Death.

DUNKIRK, May 28.—A fire which broke out yesterday in a petroleum refinery at Condekerque, turns out to be more serious than was at first supposed. Ten persons have been burned to death. The flames are still spreading, and many houses in the vicinity of the refinery have been burned to the ground. There are eight large petroleum reservoirs close to the scene of the fire, and great anxiety prevails lest they explode.

Indicted by the Grand Jury.

LOS ANGELES, Cal., May 28.—The grand jury has indicted Supercargo Burt and Capt. O'Farrell, of the schooner Robert and Minnie. O'Farrell is in jail, but Burt is out on \$10,000 bail. The five sailors arrested were not indicted, but are held as witnesses as are also the deserters from the Itata. The grand jury found other indictments, but the names are not made public.

Lynching Prevented.

KENT, O., May 28.—James Ritter, aged 30, was arrested here on the charge of raping Florence Dalley, aged 11. He was bound over in \$500. There were strong threats of lynching, but Marshal Newton lodged him in jail at Ravenna. Ritter was sent up from Summit county several years ago to serve a three years' sentence for a like offense.

DEADLY DUEL.

Both the Principals Receive Injuries Which Prove Fatal.

ATCHISON, Kan., May 28.—Edward Hagerman, a constable, went to the farm of Cyrus Aldrich, in Morton county, Wednesday, to take possession of some mortgaged horses. Aldrich ordered him off the farm, and, drawing a revolver, fired at him. Hagerman returned the fire and the two men engaged in a deadly duel until they had exhausted their weapons.

Hagerman received a ball in the hand and one in the abdomen, the latter causing his death yesterday afternoon. Aldrich received three bullets in his shoulder and breast. He is still alive, but his death is hourly expected. When the fight began the men were thirty feet apart, but they advanced toward each other as the battle progressed, and when they dropped they were almost within arms length.

ON THE SWITCH.

Switchmen's Union Hauls Off From the Mata Line.

GALESBURG, Ill., May 28.—Notice was received here yesterday by the grand officers of the Brotherhood of Railway Trainmen of the withdrawal of the Switchmen's union from the supreme council of Federated Railway Employees. This action is not a surprise to the trainmen officials and results from the refusal of the trainmen to stand by the switchmen in their trouble with the Northwestern. It is predicted here that the council will be reorganized in June and that a number of new organizations will be incorporated in it.

As Bad as Reported.

LONDON, May 28.—The statement that the Christian missions at Nankin have been attacked and pillaged by the natives is correct. The inmates managed to escape. All the European women and children have left Nankin. The Methodist Girls' school has been set on fire and looted. The anti-foreigner mob, after doing considerable amount of damage, dispersed. The British twin-screw steel torpedo cruiser Porpoise, six guns, 1,700 tons, 3,500 horse-power, commanded by Richard W. White, has been ordered to Nankin to investigate the riots and to protect British interests. Chinese troops have also been dispatched to the scene of the troubles.

Determined Strikers.

CRAWFORDSVILLE, Ind., May 28.—A telegram from Waveland states that the Midland strikers are assuming the offensive. Yesterday morning a committee waited on Paymaster Parkhurst, and escorting him to the town limits, told him to skip, which he did. The master mechanic and three assistants were treated in the same way. The Ladoga strikers have gone to Waveland to help guard the cars. Sheriff McClosky is now on the grounds, trying to induce the men to submit to arrest peacefully.

Collided With an Engine.

ZANESVILLE, O., May 28.—A special train containing the officials of the C., S. and H. railroad and the auditors of the counties through which the road passes, collided yesterday afternoon with an engine near Fultonham, nine miles from this city, wrecking both engines and smashing the private car. All the passengers were more or less injured, and the fireman of the special engine dangerously so.

Sent Up for Eighteen Years.

WHEELING, W. Va., May 28.—Dr. Garrison, who shot and killed Dr. Baird in this city last March, was yesterday convicted of murder in the second degree. The penalty is from five to eighteen years in the penitentiary. A motion for a new trial was made. The case was one of the most sensational ever tried in West Virginia. The murdered physician had served one term as mayor of Wheeling, and at the time of his death was at the head of the Free Masons here.

Strike Settled.

LONDON, May 28.—The strike of the journeymen tailors of this city is virtually settled. The employers' committee and the strikers' delegates are now in joint session arranging details of a compromise which will result in the men resuming work to-morrow.

Fatal Boiler Explosion.

PLATTSBURGH, N. Y., May 24.—A boiler exploded at the Lion mountain mines at noon yesterday, fatally injuring Henry Liberty and severely injuring two others whose names are not known. The boiler room and contents were badly wrecked.

Lovell saved the life of the girl, later the actress, Charlotte Cushman, by jumping from a wharf at Osterville, on Cape Cod, and bringing her to shore just as she was about sinking for the last time.

LYNN, Mass., May 28.—Harry Tracey, of Cambridge, charged with causing the death of John Burns in a glove fight Monday evening, was yesterday held in \$3,000 for the superior court in October.

Illness of an Ex-Chief Justice.
